01 PROFILE

Full-stack web developer who builds **fast, conversion-focused e-commerce stores and custom web applications** — hand-coded, not templated. Works across **React, Next.js and TypeScript** on the front end, **WordPress (custom themes and headless), WooCommerce and Shopify** on the CMS side, and **Node.js and Strapi** APIs on the back end. 13+ projects shipped for companies in Egypt and Saudi Arabia — from CRM dashboards and headless-CMS sites to e-commerce stores, bilingual websites and **blog platforms**, owned end to end from build to launch. Fluent in **AI-assisted development**: leverages Claude and other leading models for coding, images and video, and builds **n8n AI automations** such as chatbots and blog-publishing pipelines — choosing the right model for each goal to deliver faster without compromising quality.
